

Declaration of consent for the use of images of people

Film and audio production and documentation are an important part of our work with children and young people. For this reason, audio and video recordings are made for and by children in a wide variety of situations. The images can also be used for public relations purposes (social media, flyers, posters, press). Images of people in this context include graphics, drawings, and audio and video recordings that depict children in an individually recognizable way.
